Original File 11.1.21-Allyson McDonnell.txt  
**Min-U-Script® with Word Index**

1           Q     And you don't recall conversations with  
2     any of the other two nurses -- with either of the  
3     other two nurses concerning a call concerning Andre  
4     Gardin, Junior or about children with injury to the  
5     scrotum on that day?

6           A     No.

7           Q     Do you understand that scrotal swelling or  
8     scrotal pain is an emergency situation?

9           A     Yes.

10          Q     And in that case, should a patient be  
11     directed to proceed immediately to the emergency  
12     room?

13          A     Yes.

14          Q     And why is that?

15          A     Because it's a medical emergency. They  
16     need an ultrasound to rule out testicular torsion.

17          Q     Do you understand the consequences of not  
18     having an ultrasound to rule out testicular torsion?

19                     MR. ZACK: Objection to form. You  
20     may answer.

21                     THE WITNESS: Yes.

22     BY MR. JOKELSON:

23          Q     And what are those consequences?

24          A     Loss of testicle.
